

## ★ 'FOREVER FANTASTIC' GROUP CLASSES ★

Our new 'Forever Fantastic' programs were launched in March, April and May 2009, and have been a huge success!

The 'Forever Fantastic' programs are structured to allow our students to progress from Intro - Intro Plus - Intermediate - Bronze - Silver - and beyond.

Our students can choose the class best suited to their own level and ability, and can progress at their own speed.

The best way to start is with our beginner group class program **'FOREVER FANTASTIC' Intro Level** for ABSOLUTE beginners, which is especially designed for people who are new to ballroom dancing.

This program covers 4 of the most popular dances, including Social Foxtrot, Jive, Cha Cha, and Waltz.

We start right at the beginning, with the most basic steps.

Before long, you'll feel comfortable enough to move on to **'FOREVER FANTASTIC' Intro Plus** and challenge the more sophisticated steps. We will also introduce you to two new dances - Tango and Samba!

After you get a little more familiar with the basics, most people want to move on to experience a little more.

For those students, we offer **'Forever Fantastic' Intermediate I and II** in both **LATIN and STANDARD**.

These programs give you more information, so you can make those steps look even better and more polished.

**Intermediate I** also introduces two new dances - Quickstep and Rumba!

In each course, you review material taught at the previous level, learn new steps and dance technique, and are introduced to new dances.

As in learning most skills, people need to practice regularly and learn step by step.

Our goal is to train dancers to the highest standard of each dance.

**Progress through our Forever Fantastic programs and have fun on the dance floor!**
